CALIFORNIA ASSOCIATION OF REALTORS®

DISCLOSURE REGARDING REAL ESTATE AGENCY RELATIONSHIPS

(As required by the Civil Code) (C.A.R. Form AD, Revised 4/06)

When you enter into a discussion with a real estate agent regarding a real estate transaction, you should from the outset understand what type of agency relationship or representation you wish to have with the agent in the transaction.

SELLER'S AGENT

A Seller's agent under a listing agreement with the Seller acts as the agent for the Seller only. A Seller's agent or a subagent of that agent has the following affirmative obligations:

To the Seller:

A Fiduciary duty of utmost care, integrity, honesty and loyalty in dealings with the Seller.

To the Buyer and the Seller:

- (a) Diligent exercise of reasonable skill and care in performance of the agent's duties. (b) A duty of honest and fair dealing and good faith. (c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the parties.

An agent is not obligated to reveal to either party any confidential information obtained from the other party that does not involve the affirmative duties set forth above.

BUYER'S AGENT

A selling agent can, with a Buyer's consent, agree to act as agent for the Buyer only. In these situations, the agent is not the Seller's agent, even if by agreement the agent may receive compensation for services rendered, either in full or in part from the Seller. An agent acting only for a Buyer has the following affirmative obligations:

To the Buyer:

A fiduciary duty of utmost care, integrity, honesty and loyalty in dealings with the Buyer.

To the Buyer and the Seller:

- (a) Diligent exercise of reasonable skill and care in performance of the agent's duties. (b) A duty of honest and fair dealing and good faith. (c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the parties.

An agent is not obligated to reveal to either party any confidential information obtained from the other party that does not involve the affirmative duties set forth above.

AGENT REPRESENTING BOTH SELLER AND BUYER

A real estate agent, either acting directly or through one or more associate licensees, can legally be the agent of both the Seller and the Buyer in a transaction, but only with the knowledge and consent of both the Seller and the Buyer.

In a dual agency situation, the agent has the following affirmative obligations to both the Seller and the Buyer:

- (a) A fiduciary duty of utmost care, integrity, honesty and loyalty in the dealings with either the Seller or the Buyer. (b) Other duties to the Seller and the Buyer as stated above in their respective sections.

In representing both Seller and Buyer, the agent may not, without the express permission of the respective party, disclose to the other party that the Seller will accept a price less than the listing price or that the Buyer will pay a price greater than the price offered.

The above duties of the agent in a real estate transaction do not relieve a Seller or Buyer from the responsibility to protect his or her own interests. You should carefully read all agreements to assure that they adequately express your understanding of the transaction. A real estate agent is a person qualified to advise about real estate. If legal or tax advice is desired, consult a competent professional.

Throughout your real property transaction you may receive more than one disclosure form, depending upon the number of agents assisting in the transaction. The law requires each agent with whom you have more than a casual relationship to present you with this disclosure form. You should read its contents each time it is presented to you, considering the relationship between you and the real estate agent in your specific transaction.

This disclosure form includes the provisions of Sections 2079.13 to 2079.24, inclusive, of the Civil Code set forth on page 2. Read it carefully.

I/WE ACKNOWLEDGE RECEIPT OF A COPY OF THIS DISCLOSURE AND THE PORTIONS OF THE CIVIL CODE PRINTED ON THE BACK (OR A SEPARATE PAGE).

Signature lines for Buyer and Seller, Agent Name (Ron Blake), and Agent Signature/Date.

THIS FORM SHALL BE PROVIDED AND ACKNOWLEDGED AS FOLLOWS (Civil Code §2079.14):
• When the listing brokerage company also represents Buyer, the Listing Agent shall have one AD form signed by Seller and one signed by Buyer.
• When Buyer and Seller are represented by different brokerage companies, the Listing Agent shall have one AD form signed by Seller and the Buyer's Agent shall have one AD form signed by Buyer and one AD form signed by Seller.

Your Natural Hazard Disclosure report has been carefully prepared by the staff of GeoLogix Disclosures, LLC (hereafter referenced as "GeoLogix"), which has combined experience and skill in cartography, geography, geology, and forestry. Furthermore, in accordance with California Civil Code §1103.5, the disclosure duties of the transferor and his or her agent shall have been met upon delivery of this Natural Hazard Disclosure Statement; neither shall be required to provide notice to the transferee if the information provided subsequently becomes inaccurate as a result of any governmental action, map revisions, changed information or other act or occurrence, unless the transferor or agent has actual knowledge that the information has become inaccurate. Indemnification and Limitation of Liability:

GeoLogix provides an indemnification for this disclosure, subject to other terms and conditions stated in this report, for any liabilities that may arise relative to the requirements of NHD Law and for no other purpose. GeoLogix maintains a minimum \$10,000,000 errors and omissions insurance policy to insure for negligent acts. This disclosure is not a substitute for a property damage insurance policy, and GeoLogix assumes no liability or responsibility for any costs or consequences arising due to the need, or lack of need, for a homeowners fire, flood or earthquake insurance policy. The report is to be used only by parties ordering the statutory Natural Hazard Disclosure Statement form required by NHD Law. There are no third-party beneficiaries. GeoLogix will not appear in court to defend or explain this report without being paid reasonable consulting fees and expenses unless such appearance is due to an error in this report.

- If errors, inaccuracies or omissions in this report were known to exist by recipient(s) and not disclosed to GeoLogix;
- For uses beyond the scope and intent of NHD Law.

Federal and State "Approved" Natural Hazard Maps:

GeoLogix relies on the official sources of approved maps prescribed by NHD Law, and only those maps, in determining natural hazard zones. No on-site or visual examination of the subject property site has been performed. Rather, GeoLogix has made this disclosure using diligence to interpret the official sources of approved maps relative to the location of the property as shown on tax maps, street maps and other sources. GeoLogix accepts no liability for errors in federal and/or state maps relative to NHD Law nor for errors or lack of maintenance in the county assessor parcel maps as available through resellers of this material.

ACCEPTANCE: USE OF THIS REPORT BY RECIPIENT OR ANY THIRD PARTY CONSTITUTES ACCEPTANCE OF THE CONDITIONS AND LIMITATIONS DESCRIBED ABOVE.

Explanation of Hazard Areas

This California residential property disclosure report provides determinations in compliance with California Civil Code §1103 for the subject property. The following explanations define and provide additional information regarding the six natural hazard areas defined by law.

Special Flood Hazard Area (SFHA)

An "A" or "V" zone Special Flood Hazard Area is defined as the 100-year flood plain, meaning that there is a 1-percent chance in any given year of a flood reaching the outer boundaries of the SFHA. Flooding may occur more frequently in the interiors of these zones as the property can be deeper in the flood plain than those on the edges. Flooding can and often does occur outside SFHAs and therefore this determination is made only with reference to FEMA's current maps and is not an opinion as to the subject property's susceptibility to flooding.

If you want to know more about flood plain management and flood conditions in your area, you should contact your local community official and/or you can order a "Flood Certification" from GeoLogix at 1-800-98-4-MAPS. A Flood Certification is prepared for the "structure" and provides more information, including whether or not your community participates in the National Flood Insurance program, thereby making insurance available. Your community official might be someone either in your city or your county government, depending on your area. Additional flood insurance information can be found at the FEMA web site at <http://www.fema.gov/nfip/>.

Area of Potential Flooding (Dam Inundation)

Any governmental agency, utility or other owner who operates a dam in the state of California must produce "dam inundation maps" showing any area(s) which might suffer flooding as a direct result of that dam's failure. The Water Code of the State of California defines a "dam" as any artificial barrier which is, or will be, 25 feet or more in height from the natural bed of the stream or watercourse at the downstream toe of the barrier or has, or will have, an impounding capacity of 50 acre-feet or more. Inundation zones are predicted assuming the reservoir or lake is at maximum capacity at the time of dam failure. In order to comply with Natural Hazard Disclosure AB 248, the dam operator must prepare and submit Dam Inundation Maps to the California State Office of Emergency Services for review and official approval. A Dam Inundation Zone refers to an area predicted to be inundated by water downward of a dam or levee in the event that an immediate and complete failure or breach of the dam occurs.

This disclosure is not an opinion as to whether or not a property will be subject to flooding due to a dam failure. Rather, it is solely a determination as to whether or not a property is within one or more dam inundation zones on maps "approved" by the California State Office of Emergency Services.

For more information about dam inundation zones, call the State Division of Dam Safety or your State or your local County Office of Emergency Services. More information can be found on the Internet at <http://www.oes.ca.gov/dim.nsf>.

Very High Fire Hazard Severity Zone

Very High Fire Hazard Severity Zones are generally incorporated areas that are not defined as State Responsibility Areas where a heavy accumulation of tree and/or brush fuels, and possibly steep slopes, may make it difficult to retard the rate of spread and intensity of fire. Runaway wildfire in these areas can threaten both property and life.

This disclosure is not an opinion as to the susceptibility of the subject property to wildfire. Rather this determination is made with reference to maps produced by the California State Department of Forestry, as to whether or not the subject property falls within a Very High Fire Hazard Severity Zone.

Conditions within High Fire Hazard Severity Zones can be highly variable. You might consider requesting an on-site inspection of your property from a professional to get an opinion as to the degree of danger as well as mitigation measures. For more information on this zone description and steps to be taken to reduce fire risk, contact your local fire department, and/or visit <http://www.oes.ca.gov/dim.nsf>

Wildland Area That May Contain Substantial Forest Fire Risks and Hazards

A State Responsibility Area is an unincorporated region where, in the event of fire, the California Department of Forestry (CDF) has primary responsibility for fire suppression. Additionally, property owners in these areas "may" be protected by a local fire suppression agency. To inquire if such an arrangement has been made with a local agency, contact your local CDF office. The CDF fire suppression objective is to fight wildfires. They are not obligated by law to fight structural fires, although they often do.

This disclosure is not an opinion as to the susceptibility of the subject property to wildfire. Rather, it is simply a determination with reference to maps produced by the California Department of Forestry as to whether or not the subject property falls within a State Responsibility Area.

Wildfire fuel conditions within State Responsibility zones are highly variable. You might want to consider requesting a professional on-site inspection for an opinion as to the degree of wildfire danger and mitigation options. You may also get more information at <http://www.oes.ca.gov/dim.nsf>.

Earthquake Fault Zone

An Earthquake Fault Zone is a special studies (Alquist-Priolo) zone as determined by the California State Geologist and as determined with reference to maps published by the California State Department of Mines and Geology pursuant to AB 248. This zone delineates the area where an active fault trace exists, and where the possibility of surface rupture might occur in the event of an earthquake.

This disclosure is not an opinion as to the susceptibility of the subject property to earthquakes. Rather, it is simply a determination with reference to maps produced by the California State Department of Mines and Geology pursuant to AB 248 as to whether or not the subject property falls within a special studies (Alquist-Priolo) zone approved by the State Geologist. Many earthquake hazards exist outside the special studies zones.

For more information on the probability of an earthquake along this fault and how it may affect your property, contact the U.S. Geological Survey, Seismology Department, Menlo Park, Calif., under the Interior Department. The California State Department of Mines and Geology, as of Nov. 3, 1998, has more information available on the Internet at www.consrv.ca.gov/dmg/rghm/.

Seismic Hazard Zone

Seismic Hazard Zones are regulatory zones that encompass areas prone to liquefaction (failure of water-saturated soil) and earthquake-induced landslides. To be located within a Seismic Hazard Zone means that the state has determined the likelihood that weak soil and/or rock may be present beneath the property. If present, these weak materials can fail during an earthquake. Unless proper precautions are taken during grading and construction, the weakened conditions of soil or rock can lead to structural damage. If a property is undeveloped, a site-specific investigation by a licensed engineering geologist and/or civil engineer may be required before the parcel can be subdivided or before most structure building can be permitted.

For more information about ground shaking, liquefaction and potential landslides, contact your city engineer or the U.S. Geological Survey, Menlo Park, Calif., under the Department of the Interior. You can also visit the web page for the California Department of Mines and Geology for more information, at <http://www.consrv.ca.gov/dmg/rghm/>.

This disclosure is not an opinion as to the susceptibility of the subject property to earthquakes. Rather, it is simply a determination with reference to approved maps produced by the California State Department of Mines as to whether or not the subject property falls within this special zone approved by the State Geologist.

Seller's Advisory *

Actual Knowledge of Military Ordnance & Industrial Locations

Property Address: _____

Formerly Used Military Ordnance Sites

California Civil Code §1102.15 requires that the seller of residential real property who has **actual knowledge** of any former federal or state ordnance locations (called Formerly Used Defense Sites, or FUDS) within the immediate neighborhood area shall give written notice of that knowledge as soon as possible before the transfer of title.

Industrial Use Zone

California Civil Code §1102.17 requires that the seller of residential real property disclosure has **actual knowledge** of whether the property is located within an industrial use zone. An industrial use zone is defined as any city/county zone or district in which certain manufacturing or city or county laws expressly permit commercial or airport uses.

Supplemental Real Estate Transfer Disclosure

Seller's Advisory* **Actual Knowledge of Toxic Mold and Radon** **Naturally Occurring Asbestos**

Property Address: _____

Toxic Mold

California Civil Code § 1102 now requires sellers of homes in California to disclose any knowledge that mold is present in the home at the time of transfer. Additionally, the California Association of Realtors® recommends that the seller provide the buyer with the information contained in Chapter VI of the updated "Homeowner's Guide to Earthquake Safety & Environmental Hazards" Booklet, which contains the new mold disclosure information on mold within residential structures.

Radon

Radon is a naturally occurring gas that is produced by the radioactive decay of radium and uranium. All rocks and soils can emit some radon, although it is typically present in rocks containing uranium such as certain granites and shales. Breathing high concentrations of radon may cause respiratory problems in susceptible individuals; health risks for exposure of lower concentrations are not known. Currently, studies completed by the California Department of Health Services (CDHS) show that California does not have a substantial statewide problem with indoor radon exposure although elevated radon levels does occur in some isolated areas. The CDHS also publishes a list of those companies it has determined are proficient in the analysis of the measurement devices used to measure radon. Those companies that do business in California are listed in the "California Lists of Certified Radon Measurement Laboratories" which may be obtained by calling the CDHS Radon Program Hotline at 800-745-7236. Information is also publicly available through the CDHS website at www.dhs.ca.gov/radon.

Naturally Occurring Asbestos

Exposure to asbestos may pose a significant health risk depending on the length and amount of exposure. In some California counties, there is naturally occurring asbestos in the serpentine rock. While the State has produced detailed maps for naturally occurring asbestos in El Dorado, Placer and Eastern Sacramento Counties, the State has not yet mandated disclosure of asbestos in the soil. However, buyers should be aware that at some point, the presence of asbestos on a property may restrict use or development of that property.

Database (Megan’s Law) Advisory

Property Address:

California’s "Megan’s Law" (Statutes of 1996, Chapter 908) arms the public with certain information on the whereabouts of dangerous sex offenders so that local communities may protect themselves and their children. The law also authorizes local law enforcement to notify the public about high-risk and serious sex offenders who reside in, are employed in, or frequent the community. This law is not intended to punish the offender and specifically prohibits using the information to harass or commit any crime against the offender. It recognizes that public safety served when registered sex offenders are not concealing their location to avoid harassment. A seller of residential real property, or his/her agent, must include the following notice, in not less than eight-point type, in the sales contract. The delivery of this notice is deemed adequate, per California Civil Code § 2079.10a, to inform the buyer of the proximity of registered sex offenders. Prospective purchasers are encouraged to investigate this available Megan’s law data.

NOTICE: THE CALIFORNIA DEPARTMENT OF JUSTICE, SHERIFF’S DEPARTMENTS, POLICE DEPARTMENTS SERVING JURISDICTIONS OF 200,000 OR MORE AND MANY OTHER LOCAL LAW ENFORCEMENT AUTHORITIES MAINTAIN FOR PUBLIC ACCESS A DATA BASE OF THE LOCATIONS OF PERSONS REQUIRED TO REGISTER PURSUANT TO PARAGRAPH (1) OF SUBDIVISION (A) OF SECTION 290.4 OF THE PENAL CODE. THE DATABASE IS UPDATED ON A QUARTERLY BASIS AND A SOURCE OF INFORMATION ABOUT THE PRESENCE OF THESE INDIVIDUALS IN ANY NEIGHBORHOOD. THE DEPARTMENT OF JUSTICE ALSO MAINTAINS A SEX OFFENDER IDENTIFICATION LINE THROUGH WHICH INQUIRIES ABOUT THE INDIVIDUAL MAY BE MADE. THIS IS A "900" TELEPHONE SERVICE. CALLERS MUST HAVE SPECIFIC INFORMATION ABOUT THE INDIVIDUAL THEY ARE CHECKING. INFORMATION REGARDING NEIGHBORHOODS IS NOT AVAILABLE THROUGH THE "900" TELEPHONE SERVICE.

- Law Enforcement Agencies: The following agencies make the CD-ROM database available for public viewing. Call the applicable number to obtain the location and time of viewing
900 Number Service: This information is also available at 900-463-0400 at a cost of \$10 per call for inquiries of up to two individuals.

County Law Enforcement Agencies

Table with 6 columns: County Name, Phone Number 1, County Name, Phone Number 2, County Name, Phone Number 3. Lists counties from Alameda to Yuba with their respective phone numbers.

As a result of new California law (Calif. Penal Code, Sec 290.46), the California Office of the Attorney General now provides the public with Internet access to information on more than 63,000 persons required to register in California as sex offenders. The public can search these records at the Attorney General’s Megan’s law site at: <http://meganslaw.ca.gov/index.htm>

Specific home addresses are displayed on more than half of these offenders in the California communities; the site displays the last registered address reported by the offender. The remaining half of these offenders are included on the site with listing by ZIP Code, city and county. Information on sex offenders not yet included on the Megan’s Law website may be available from local law enforcement personnel listed on this form.

Energy Efficiency Advisory

Beginning October 1, 2005, Title 24 of the 2005 CA Building Energy Efficiency Standards requires that ductwork be inspected by local governments when new heating, air conditioning or ventilating equipment is installed. If ductwork leaks more than 15%, repairs are required. Since on average a home's ductwork leaks by at least 30%, there will probably be added costs for ductwork repair when replacing heating, air-conditioning and ventilating equipment. Under Title 24, there is no requirement to replace or repair current equipment or ductwork, but there are specific standards for equipment and ductwork that must be met when replacement occurs.

For more information, go to: www.energy.ca.gov/title24/2005standards.

Beginning January 23, 2006, Federal Law requires that all new air conditioning equipment comply with the U.S. Department of Energy's efficiency standard, called "Seasonal Energy Efficiency Rating" or "SEER". Existing air-conditioning equipment is not affected by this law; however, new compliant equipment will probably be more expensive due to the new energy efficiency standard.

For more details, go to: www.eere.energy.gov/buildings/appliance_standards/residential_products.html.

The U.S. Department of Energy estimates that the more expensive 13 SEER equipment should be offset by as much as a 23% reduction in monthly energy costs. Certain energy efficient products, including heating and air conditioning equipment, windows, doors, etc., may be eligible for a tax credit up to \$ 500 effective January 2006.

For more details, go to: www.energy.gov/taxbreaks.htm.

CA Methamphetamine Advisory

California's Methamphetamine Contaminated Property Cleanup Act of 2005 now requires property owners to disclose in writing if an order prohibiting occupancy of a property due to meth lab contamination was issued on the property and to provide a copy of that order to prospective buyers. The Act also provides penalties, including up to a \$ 5000 fine, and remediation requirements prior to allowing re-occupancy.

Endangered Species Advisory

While there is no law or regulation that requires a seller to disclose endangered species or habitat, buyers should investigate whether this is an issue on or near the property to be purchased that could affect the current or proposed use of the property.

Important Tax Year Note: Please note that while the 2006/07 Tax Year is now in effect, secured tax bills are normally not printed and mailed by the County until later in the year. Also there is a lag time of several weeks when each county releases tax data to data providers. Consequently this report reflects only 2005/06 tax bill information at this time. The new tax bill information will not be reflected on this report until the data is made available and this report is marked 2006/07. Please contact the county and refer to your title report for more updated information until this report reflects the new information.

The following listing is a summary of the current year secured property tax bill. It is provided for informational purposes only. Ad valorem taxes are calculated annually based on the assessed value of the land and improvements. When a property is sold, the assessed values will be reset to the sale price. Ad valorem taxes can therefore change dramatically if the sales price differs from the current assessed value of the property.

Please Note: All information on this page is based on 2005/06 data only. Ad valorem taxes are historical and are subject to change when a home sells. No warranties are made regarding this information. The information on this page is not provided as a disclosure by seller or his/her agents.

Ad Valorem Taxes (Note: Historical only, based on the seller's tax bill)

The following include both the basic levy authorized by Proposition 13, plus any additional voter approved general obligation debt. The amount you pay will be based on the purchase price of your home less any exemptions, times the estimated tax rate.

Statutory Notice of Special Tax/Assessment

To the prospective purchaser
of the real property
known as:

Assessor's Parcel Number: 556-311-06-00
Address/Legal Description: 815 E 6th St | National City Ca 91950-2414
Report Date: 11/17/2006

This is a notification to you prior to your purchasing this property.

Mello-Roos Community Facilities Districts:

This property is subject to a special tax, which is in addition to the regular property taxes and any other charges and benefit assessments on the parcel. The special tax may not be imposed on all parcels within the city or county where the property is located. If you fail to pay this tax when due each year, the property may be foreclosed upon and sold. The tax is used to provide public facilities or services that are likely to particularly benefit the property.

There is a maximum tax that may be levied against this parcel each year to pay for public facilities. This amount may be subject to increase each year based on the special tax escalator listed below (if applicable). The annual tax charged in any given year may not exceed the maximum tax amount. However, the maximum tax may increase if the property use changes, or if the home or structure size is enlarged. The special tax will be levied each year until all of the authorized facilities are built and all special tax bonds are repaid. If additional bonds are issued, the estimated end date of the special tax may be extended.

The authorized facilities which are being paid for by the special taxes and the money received from the sale of the bonds are summarized below. These facilities may not yet have all been constructed or acquired and some may never be constructed or acquired.

This parcel IS NOT subject to any Mello-Roos Community Facilities District special taxes.

You should take this tax and the benefits from the public facilities and services for which it pays into account in deciding whether to buy this property. You may obtain a copy of the resolution of formation which authorized creation of the community facilities district, and which specifies more precisely how the special tax is apportioned and how the proceeds of the tax will be used, by calling the contact name and number listed above. There may be a charge for this document not to exceed the estimated reasonable cost of providing the document.

1915 Act Bond Assessment Districts:

This property is within the assessment district(s) named below. Each assessment district has issued bonds to finance the acquisition or construction of certain public improvements that are of direct and special benefit to property within that assessment district. The bonds will be repaid from annual assessment installments on property within the assessment district.

This property is subject to annual assessment installments of the assessment district that will appear on your property tax bills, but which are in addition to the regular property taxes and any other charges and levies that will be listed on the property tax bill. If you fail to pay assessment installments when due each year, the property may be foreclosed upon and sold. The annual assessment installment against this property as shown on the most recent tax bill for the 2005/06 tax year is listed in the table below. Assessment installments will be collected each year until the assessment bonds are repaid.

The public facilities that are being paid for by the money received from the sale of bonds that are being repaid by the assessments are included in the table below. These facilities may not yet have all been constructed or acquired and it is possible that some may never be constructed or acquired.

This parcel IS NOT subject to any 1915 Act Bond special assessments.

You should take this assessment and the benefits from the public facilities for which it pays into account in deciding whether to buy this property. You may obtain a copy of the resolution confirming assessments that specifies more precisely how the assessments are apportioned among properties in the assessment district by calling the contact name and number listed above. There may be a charge for this document not to exceed the estimated reasonable cost of providing the document.

I (we) acknowledge that I (we) have received a copy of this notice. I (we) understand that if Mello-Roos and/or 1915 Bond assessments affect this property, I (we) may terminate the contract to purchase or deposit receipt after receiving this notice from the owner or agent selling the property. The contract may be terminated within three days if the notice was received in person or within five days after it was deposited in the mail by giving written notice of termination to the owner or agent selling the property.

Other Special Assessments

This section provides detail on other assessments (aside from the Mello-Roos and 1915 Act charges identified on the prior pages) that will affect the property.

Other Special Assessment Liens/Financing:

In some instances, local government agencies may use alternate means of financing projects, including state loans, agency loans, 1911 Act assessment district bonds, other types of improvement bonds, and other methods to pay the cost of a capital project. Also, there may be other fixed schedule items on the tax bill that must be paid over a number of years. In some cases, these amounts may be prepaid. Also, for internally financed projects, the loan may need to be paid off prior to transfer of property.

This parcel has no Other Special Assessment District charges for the 2005/06 tax year.

Other Direct Assessments:

In addition to the items listed in the previous sections, as of the 2005/06 tax year, your property is subject to the following additional Direct Assessments that do not impose special accelerated foreclosure liens on your property.

Agency	Direct Assessment Description	2005/06 Levy	Contact Phone
Metropolitan Water District	Water Standby Charge	\$ 11.50	Public Info (800) 755-6864
County of San Diego Health Services	Mosquito and Disease Control Assessment	\$ 8.54	Staff (800) 273-5167
San Diego County Water Authority	Water Availability Charge	\$ 10.00	Mickey Zeichick (619) 682-4226
City of National City	Sewer Service Charge	\$ 384.96	Zinda Jimenez (619) 336-4256
County of San Diego Health Services	Mosquito and Rat Control Assessment	\$ 2.28	Staff (858) 694-2888

These direct assessments and charges will appear annually on your property tax bill. In most cases, these are subject to public notice and hearing requirements (as controlled by Proposition 218) and any increases or additions must be approved by a vote of the registered landowners (or registered voters, depending upon the specific legislation). While they do not impose an accelerated foreclosure lien, they do result in an increased annual tax rate. For additional information on a particular special assessment, please call the phone number listed above.

Accelerated Foreclosure Summary

Important: If any items are listed below, your property has accelerated foreclosure liens attached to it. These have priority over other property taxes, and are part of the security for a municipal bond issue (or else are part of a Mello-Roos community facilities district). The issuers of these bonds are often contractually required to monitor and collect delinquent assessments quickly. There is no five year waiting period. If you fail to pay your property tax bills when due each year, the property may be foreclosed upon and sold. **Therefore, it is important to pay your property tax bill on time. If you cannot, you should contact your lender to discuss alternate arrangements.**

General Information about Your Property Tax Bill

California's secured property tax bills consist of two types of charges: 1) ad valorem taxes and 2) special assessments. These are explained briefly below.

1) Ad Valorem Taxes

Ad valorem taxes are based on the value of property. The basic ad valorem tax is the statewide tax authorized by California law. This general tax is 1% of the assessed value of the property each year. This tax is shared by the state, schools, cities and counties. In addition, voters can approve local additional ad valorem overrides that put the ad valorem tax rate over 1%. These overrides normally involve general obligation bond debt. These general obligation bonds do not place a special lien on any one property but simply increase the ad valorem tax rate slightly over 1%.

2) Special Assessments

Anything that is not an ad valorem tax is called a "special assessment" or a "direct assessment." These charges are local in nature and are used to fund local improvements or public services that provide some type of general or direct benefit to the property. Special assessments are not tax rates and by law cannot be based on the value of property. Instead, each special assessment district has some type of benefit formula that is used to calculate the amount of the assessment on each parcel. Special assessments can be levied using a variety of laws, including the Mello-Roos Community Facilities Act of 1982; various assessment district bond acts such as the 1915 Act or 1911 Act; or through a variety of non-bonded charges such as the 1972 Act Landscape and Lighting Act, the 1982 Benefit Assessment Act, user fees, service charges and other methods. Some commonly used types of special assessments are:

- a) **Mello-Roos Community Facilities Districts.** This is a type of special assessment financing frequently used to fund infrastructure, schools and many types of public services such as police, fire, landscaping, etc. A Mello-Roos district may or may not involve a bond sale. Mello-Roos districts place a senior lien on the property that has a provision for accelerated foreclosure action by the levying agency if property taxes are not paid on time. Because of this, California law now requires disclosure of Mello-Roos taxes in real estate transactions.
- b) **1915 Bond Act Assessment Districts.** This is another type of special assessment financing method frequently used to fund infrastructure and other public improvements in California. The 1915 Act is a bond act only, meaning another assessment district formation act must be used to form the boundaries of the district before 1915 Act bonds may be sold. These formation districts are usually one of these: the 1913 Act, the 1911 Act or the 1972 Act. Issuance of 1915 Act bonds places a senior lien on the property that has a provision for accelerated foreclosure action by the bond issuer if property taxes are not paid on time. Because of this, California law now requires disclosure of assessments securing 1915 Act bonds in real estate transactions.
- c) **Other Bonded Districts.** In addition to Mello-Roos and the 1915 Act, there are other types of land-secured bonds that may impact California property. These include improvement bonds issued under the 1911 Act or other improvement bonds issued under county or charter city laws. Some of these do include the power of accelerated foreclosure; the Alliant tax report will include such items on the "Summary of Items Subject to Accelerated Foreclosure" page.
- d) **Maintenance Districts.** In most newer communities in California, the cost of maintaining common areas, landscaping, street lighting, storm drains and parks is often handled through Landscape and Lighting Maintenance Assessment Districts. These may be formed under the 1972 Landscaping and Lighting Act or other legislation; these are approved annually through a public hearing process. They may have a cost-of-living increase or other formula but must be renewed every year. These districts are often referred to as "cost recovery districts" since they provide a means for government to provide a specific service and have the cost recovered through assessing those properties that benefit from the services.
- e) **User Fees and Service Charges.** Many municipalities charge user fees for services to the property such as water and sewer. Instead of billing the property owner directly for monthly or quarterly fees, the service charge is collected annually on the property tax bill.
- f) **Standby or Availability Charges.** Local agencies that provide water and sewer services are also authorized to levy Standby or Availability Charges. These annual assessments are charged to help fund the future availability of services to the area or the expansion of services to meet future growth.
- g) **County Service Areas, Community Services Districts and Permanent Road Divisions.** In unincorporated areas of a county, the county may provide services to specific areas through the formation of a County Service Areas ("CSA") or a Community Services District. Then, a specific community may receive enhanced services such as road maintenance, landscaping, street lighting and park maintenance, and repay the county (or itself, if a Community Services District) through special service charges or assessments. Permanent Road Divisions are a similar type of entity formed by a county to provide road improvement and maintenance in unincorporated areas.
- h) **Benefit Assessments and Parcel Taxes.** School Districts and other local agencies commonly levy voter-approved annual special parcel taxes or benefit assessments. These are annual charges that pay for specific service. Commonly used benefit assessments and parcel taxes are those to pay for schools, fire protection, flood control and storm water maintenance or police services.
- i) **Penalties.** Local agencies have the ability to place delinquent account charges for property related services or civil penalties directly on the tax bill. These may include delinquent utility bills, fees for parcel cleanup and weed abatement and fees for civil penalties.
